Introducing Scheme

Designed by us, tailored by you

Our new Scheme modular furniture has great depth within the range, with something to suit every taste.

Comprising a comprehensive selection of basin unit sizes, basins types, stunning furniture finishes and handle options, you can tweak every detail to perfectly suit your space and personal sense of style.

An array of clever additions from sleek internal lighting to coordinating mirrors and recessed cabinets will bring an extra special, ultra modern feel to your bathroom.

Look out for these great features...

Internal storage

Built-in drawer dividers in all units will help keep everything in its rightful place. Adding the optional beech storage boxes will ensure that all your bathroom bits and bobs have a home.

Soft close

Soft close drawer runners and door hinges are used across the range, giving a smooth, quiet closing action and luxurious feel.

Lighting

For a real style statement create mood or night lighting by adding the optional lighting kit. This will give a blade of light along the top and bottom edges of the drawers as well as lighting up the top drawer to help you find what you need. Contemporary styling with a practical twist.

10 year guarantee

We take great pride in the workmanship of our designs, using the very best materials and manufacturing techniques. This means that all Scheme furniture benefits from a 10 year guarantee.

5 steps to creating your perfect Scheme bathroom

If you want a modern bathroom and don't like to compromise then Scheme is the range for you. Stylish, contemporary and with so many potential configurations, you can tailor your choice to fit your needs exactly. All you have to do is choose!

Create a style statement by selecting from different basin options, an array of on trend finishes and coordinating handles. Complete your Scheme bathroom with a choice of optional extras.

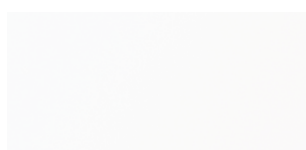

1. Size Options

Firstly assess your bathroom space and choose the basin unit size to best suit. There's a classic freestanding unit in 600mm width. For a wall mounted option there is a choice of 600, 800, 1000 or even 1200mm widths, all of which have two soft close drawers providing practical, accessible under basin storage.

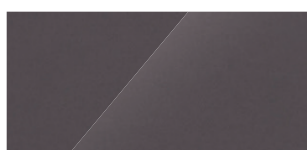

2. Basin Options

Now select your basin preference. Choose from a sleek full width ceramic basin, a modern Isocast basin with practical workspace on either side or one of three vessel basin designs.

3. Finish Options

A choice of no less than eight finishes in Scheme means that you can match or contrast to anything in your bathroom design. The colour pallet has been chosen to give a full spectrum of contemporary neutral painted colours in matt and glossy options. There is also a modern dark walnut finish if you are looking for a more natural look.

4. Handle Options

With seven different handle styles you can add the perfect finishing touch to make your basin unit your own. Undrilled drawer fronts allow you to position the handles where you wish, though we think a third of the drawer height down from the top looks good. Keep the whole look minimalist by using chrome drawer-top handles or go for a functional front-fixed wide pull option. The matt black handle is a super stylish choice. See page 38 for options.

5. Optional Extras

Once you've created the centrepiece for your bathroom you need to consider the optional extras which can take your design to the next level in terms of style and practicality. With Scheme it is easy to complete your new bathroom and create an individual look.

Cabinet Lighting with Hidden Switch

Create a style statement by using the lighting kit to give a blade of light along the top and bottom drawer edges. This mood or night lighting also lights up the top drawer to help you find what you need. It's easy to use, operated by simply touching the side of the unit where the on/off sensor is invisibly installed. For use with wall mounted basin units only.

Coordinating Storage Units

The tall slim Scheme wall column has lots of storage space and if one is not enough they look really effective when used in multiples of two or even three.

Drawer Boxes

Declutter your life by adding extra storage boxes to your drawers. Incredibly useful, their beech finish looks great against the matt dark grey internal drawer colour. The two box set comes complete with two lids.

Mirror & Cabinets

The super sleek Scheme mirror has been designed to perfectly complement the furniture. LED lighting will bring your bathroom to life and creates a stunning effect when used together with the cabinet lighting kit. Scheme recessed cabinets, give much needed in-wall storage. Our Virtue and Visage cabinets now match Scheme finishes too.

Ceramic basins

Your choice of basin is key to the look of your basin unit. Ceramic offers that truly classic feel. Scheme full width ceramic basins take advantage of modern ceramic production, offering striking flared designs with elegant fine edges and generous wash space. Contemporary styling in a range of sizes, with practical design features such as integrated overflows make Scheme ceramic basins a great choice.

Isocast basins

Isocast basins allow for the creation of perfectly straight fine lines and modern flowing basins, inspired by the high end styling of premium European hotels. The practical flat sides on the 800 and 1000mm basin widths give useful extra surface space in the bathroom. If your room is big enough why not enhance your bathroom experience further by choosing the 1200mm 'his and hers' double basin.

Vessel basins

Vessel basins mounted on solid surface worktops give even more choice when defining the style of your bathroom.

There are three vessel basins, two ceramic and one solid surface, depending on which design takes your fancy. All sit upon perfectly matt white solid surface worktops, uncut to allow for bespoke basin placement. Combine with either wall mounted or tall basin mixers to give a real spa feeling to your home.

Storage

We are all aware how much paraphernalia seems to accumulate in our bathrooms, so make sure you consider adding extra storage. The coordinating Scheme mirrored wall column unit is tall and slim with plenty of useful storage space. If one is not enough they look really effective when used in multiples of two (as in the picture to the left) or even more!

All Scheme basin units have practical drawer dividers, but to help keep them even tidier use the extra internal storage boxes with lids to keep your bathroom bits and bobs safe (or private!). The beech finish looks great against the matt dark grey interiors of the drawers.

Mirrors & Cabinets

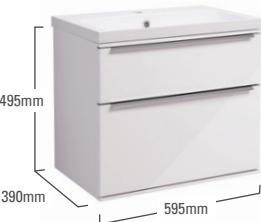

The super sleek Scheme mirror has been designed to perfectly complement Scheme furniture and comes in a range of sizes to suit. The stylishly slim LED lighting will bring your bathroom to life and creates a stunning effect when used together with the basin unit lighting kit, perfectly matching the thin light detailing.

Scheme recessed cabinets, available in two depths, give much needed in-wall storage while giving a sense of space in your bathroom. Front frames match the Scheme finishes and, being recessed, they look very minimal and discreet too. There are two depths to suit, depending on the space you need and construction of your wall; 75mm depth to fit within a 3 inch stud wall or 120mm depth, specifically for use in built-out walls.

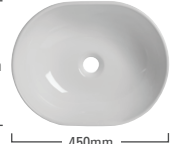

Our popular Virtue and Visage single and double cabinets are now also available to match all Scheme finishes. Alternatively the coordinating Scheme mirrored wall column unit is tall and slim with plenty of useful storage space.
